

to whom it may concern

here's to let you know  
Jeff Barks had a fire safety  
meeting here in our community  
and later installed some  
fire extinguishers and ~~Smoke~~<sup>Heat</sup> Detectors  
and Smoke Alarms - (praise God)  
For on <sup>10-28-13</sup> Sunday eve around 10:30  
the smoke alarm went off in  
my dau. had yellow flames  
about 2' high between her  
bed and night stand and wall  
the wall was black and hot the  
night stand started to burn and  
is charred the linoleum started  
to burn and the smoke alarm  
basically saved my family my  
house, we had friends here  
when it happened in my oldest  
dau. poured a 1/2 gallon of water  
on it to distinguish the flames  
caused by a candle unattended in  
no more candles! now - we  
have one room that doesn't  
have a smoke alarm yet in  
my husband's left and he said he'd

pay the five Safteys as  
I don't have in come- I take  
care of my seven special Blessings  
they are from 15 to 5 So yes  
we were so thankful to God  
that he worked it all out!  
Jeff was here and seen it  
Later on!

Love a great Day
